#### How to Play Air Hockey Table Machine

##### Insert Coins:

Start by inserting the required number of coins or tokens into the machine to activate the game.

##### Choose Sides:

Decide which side of the table you will play on (usually left or right). Some machines may allow you to select your side.

##### Understand the Setup:

Each player has a paddle (mallet) and a puck. The goal is to score points by hitting the puck into your opponent's goal.

##### Start the Game:

The game typically begins with the puck placed in the center of the table. Players can take turns serving, or one player may start the game by hitting the puck.

##### Control Your Paddle:

Use your paddle to hit the puck. Move it side to side to block shots and aim for your opponent's goal.

##### Score Points:

Points are scored when the puck successfully enters the opponent's goal. Each goal usually counts as one point.

##### Winning the Game:

The game continues until a player reaches a predetermined score (e.g., 7 or 10 points) or until the time runs out. The player with the most points wins.

##### Tips for Success

**Stay Mobile:** Keep your paddle moving to be ready to block the puck.

**Aim for Angles:** Try hitting the puck at angles to make it harder for your opponent to predict its path.

**Practice:** The more you play, the better you'll get at controlling the puck and anticipating your opponent's moves.
