Moq	2 unit
Net Weight	85kg
Maximum Power	190W.
Voltage	110V or 220V
Where To Use	amusement center, game center, shopping center, parks, holiday resorts, theme parks, etc

How to Play Clip Prize Machine

Insert Coins or Tokens:

Start by inserting the required amount of coins or tokens into the machine. Check the instructions on the machine for the cost per play.

Choose Your Prize:

Look at the prizes available in the machine. Decide which item you would like to try to win.

Control the Claw:

Use the joystick or buttons to control the claw. Typically, one control moves the claw left and right, while another moves it forward and backward.

Position the Claw:

Carefully maneuver the claw over the desired prize. Take your time to ensure it's directly above the item you want to grab.

Drop the Claw:

Once you're satisfied with the positioning, press the button to drop the claw. The claw will descend to grab the prize.

Watch the Claw's Movement:

The claw will attempt to grasp the prize. If successful, it will lift the item back up and move it toward the prize chute.

Collect Your Prize:

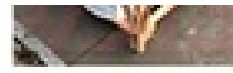

If the claw successfully grabs the prize, it will drop it into the chute. Retrieve your prize from the chute once it is released.

Try Again:

If you didn't win on your first attempt, you can insert more coins or tokens and try again!

PACKAGING LOGISTICS

Professional export package to protect the production.

step1.

Bubble Film

step2.

Well Paper

step3.

Stretch Film

step4.

Wooden Case

Drier for

Long sea voyage etc
