Weight	200KG
Warranty	12 months Warrantyand life time technology support
Dimension(mm)	L2200*W1200*H1000mm
Player	4 players

How to Use an Arcade Air Hockey Table

Insert Coins:

Start by inserting the required coins into the machine to activate the game.

Select Game Mode:

Choose the number of players (typically one or two) if the machine offers this option.

Take the Paddles:

Pick up the paddles (mallets) from the machine—one for each player.

Position the Puck:

Place the puck in the center of the playing area to begin the game.

Start the Game:

Once the puck is in place, players can hit it with their paddles, aiming to score in the opponent's goal.

Play by the Rules:

Follow basic air hockey rules, such as not using hands to touch the puck and keeping the game fast-paced.

Monitor the Score:

Keep track of the score displayed on the machine. The game usually ends when a player reaches a set score or time limit.

Collect Any Coins:

If there are unused coins, some machines will return them at the end of the game.

Additional Tips

Stay Agile: Move quickly to defend your goal and attack the opponent.

Use Angles: Aim for different angles to make it harder for your opponent to predict your shots.

Have Fun: Enjoy the competitive spirit and the social interaction with your opponent!

Following these steps will help you make the most of your air hockey experience!
